

Prophetic Decode of Dana Coverstone's Data Dream

In this program I want to do a complete decode of Pastor Dana Coverstone's vision or dream which he received and he calls it the Data Dream and it's really a very interesting apocalyptic prophecy and as such it follows the rules of apocalyptic prophecy. In other words the symbolic interpretation takes precedence over the literal interpretation.

Numerology is very important and significant, and you need a co-prophet to understand it. Dana Coverstone himself says he does not understand the dream, and he doesn't, and in fact there is one place where he knows the identity of someone in the dream and he declines to identify him, and the

reason is because it's not his mission to explain his own prophecy. That's my job. My job is to explain the Data Dream.

And I think as we go through this, you will see that the most startling imagery in his whole Data Dream is that of a casket in the rotunda of the capitol in Washington D.C. And there is a sign on the casket which says, "Inside is the democratic presidential candidate", and of course that has to be Joe Biden. He doesn't identify Joe Biden by name, but that's because this is apocalyptic prophecy. In other words it's symbolic. You know who it is through the description. And another sign on this casket is a date and that is December 17th and what does that mean? That's numerology. So we will be looking at that on this program and I'll give you a little hint. There's no body inside the casket.

Okay so I think we can begin, and I have divided this prophecy into chapters and verses and I do that. This is not part of the original prophecy. Dana Coverstone did not break it up into chapters and verses. I do this to make it easier for myself and sometimes I often find that the chapters and verses have to be rearranged. That's another characteristic of apocalyptic literature but I believe in this case I don't have to. Now I

may not have totally understood this prophecy and I always look for input from other people. So let's go through this, as what I say by chapter and by verse, and the **first chapter** I call **"The Overloaded Internet"**. Now he never uses the term internet but as I say if we read his description of it or listen to it on his own program, I'll try to put a link to his prophecy video below, I think you'll see that that's what he is talking about. He's certainly talking about alternative media, if not the internet.

And so verse 1 of chapter 1; **"I saw what looked like an atlas with interstate lines all over the nation like if you're looking down at an atlas and you see the interstate lines going all over from state to state."**

And so what the Holy Spirit here is prophesying to us through his prophet Dana Coverstone is that this is primarily a prophecy to the United States.

In verse number 2; **"And they were flashing with bits of information going all over. It looked like a data map. It appeared to be like a network of sorts that was obviously overworked."**

And we will find out later that the information that is going over this network is called "discovery" and discovery is a legal term. It represents new evidence and I think that we are going to find out a lot of new evidence about the corruption in the Biden family. However this may come out after the election. Certainly the mainstream media is doing everything it can, to block any new evidence about the Bidens before the election.

Verse number 3: **"And some of the data points were not flashing; some were; the cities, small places. You had flashing; you had things that were moving; you had data points that were moving almost like traffic."**

Now as I say, why doesn't Dana Coverstone identify this as the internet? And for one reason is there can be more than one meaning and I think that it's not limited to the internet. In any case this is a data stream of information and we will see that this is what he calls later "discovery", in other words new evidence.

Verse number 4: **"But I could see there were small workers in white lab coats and they were trying to work on the areas where the data was not flashing. I saw hammers; I saw guys with laptops I saw people who were trying to work out the minute details of why this point wasn't flashing or why this point was flashing too hard or too fast."**

Now he says that the workers are small and I think that means that they are small-minded and they are not trying to improve this internet. They are trying to control the internet. They don't want these big flashes of information. They want everything to be like the mainstream media in this country. The mainstream media controls 95% of the information that the American public receives, but they don't receive all of it and this prophecy is about the little bit that is seeping through and it's going to get ever greater.

Verse number 5: **"And I could see the areas heating up. I heard concerns that the circuits were going to go hot. That's what they said: Those circuits are going to go hot, and if they go hot they will fry. And so that was the language I was hearing. And I said they're going to go hot and get fried if they could not slow the system down."**

So the goal of these technicians is to slow this free flow of information. The Big Tech, they are trying desperately not to allow freedom of speech

on the internet, and of course we see that all the time. Many of the people I used to watch here on YouTube are no longer available. You can find them, but not on YouTube and this is becoming more and more pervasive.

Chapter 2: “It Starts in the West”.

“And suddenly from the west coast of the Midwest it started: Washington State, Oregon, California: there with these big flashes. And then I saw smoke from the data points that seem to represent those bigger cities and they stopped on the western side of the Mississippi.”

So what I believe this shows is that these new revelations about the Biden family corruption are going to start having an impact. I believe it is having an impact already. But these are new revelations and the tech and the people who run the internet and the media in this country, they are going to go bonkers trying to stop this free flow of information, and I think the smoke represents disinformation coming up from the internet to try to modify what's coming out.

And verse number 2: **“So it started all the way on the west coast; went to the western edge of the Mississippi river. I was not seeing explosions. I was not seeing bombs. I was seeing like systems shutting down because they were so hot.”**

Now I believe the west coast here is symbolic. I don't believe this information will necessarily start on the west coast. That's why Dana Coverstone says “all the way”. That means that it's the farthest away from Washington D.C. Washington state here is symbolic. The information could start in Delaware for example as it did just recently, and I can't even say why it started in Delaware, because of the

ensorship on YouTube but I think that is what this prophecy is saying. And as he says Dana is not seeing real bombs or real explosions. These are what you would call truth bombs or as Sean Hannity might say, these are bombshells. And that is what this internet type system, if it's not the internet I believe it is the internet, this is the information that is slowly getting out to the American people and is causing great concern among Big Tech leadership, and as I say we have seen this already, but I think it is going to get a lot worse.

Verse 3: **“And as the system, as the data points, the flashing got closer to the bigger places, the bigger cities, it got faster and faster and faster. And almost in the background in my dream I could hear (honking) like a warning sign that happens in a laboratory or something like that.”**

Now the reason this data gets increasingly faster and faster around the big cities is because the big cities are controlled by, for the most part, by democrats and they have the most to fear from the truth, the truth getting out. And that's why this data stream is causing consternation around the big cities, because this explosion of information, that's what Dana is seeing, is a threat to their existence.

Verse number 4: **“And the lab coat guys were working feverishly to fix these but they couldn't get the system back online. So instead they were trying to reroute. I could hear them saying, reroute that system; go around this city. I heard them say go around Reno, go around Reno, go around Reno. Get through Vegas. Go here, go there and they were trying to reroute the system to bring whatever the system was back to life.”**

As I say I believe the system is basically the internet. And although he never says that, the big cities are going to try to prevent these new

discoveries about this new evidence about the crimes from Joe Biden and his family from reaching the public. They're going to practice censorship, and of course we see that today with the New York Times for example, considered the leading newspaper in the country, and they are the worst as far as censorship goes. It took the New York Post to reveal the most recent scandal in the Biden family, and I believe that Dana Coverstone's prophecy here is showing that there are going to be much worse revelations about to be revealed.

Verse number 5: **“But as they were doing it and rerouting it, the bigger cities were still sending up smoke clouds.”** (Smoke clouds of disinfo.) **“It was like you would see in the old western movies like a Native American Indian with a blanket or something going over it.”** I think what he's saying here is that this is a primitive form of information, in other words to prevent freedom of expression. This is not what an enlightened society practices. **“It was almost like the data points were sending up information about what had happened there. I did not see American Indians. I did not see anything like that or people doing the smoke, but it looked as if there was something interrupting the smoke as it was coming up almost like it was sending out a signal of information.”**

In other words the censorship is not working. The truth is getting out and even the smoke clouds themselves are sending up information. In other words people are saying, wow if Facebook and YouTube and Twitter, if they're blocking these people, I wonder if they're telling the truth. If the New York Times is censoring this information, who's right? So this is actually going to arouse the people's curiosity. It's not going to work, sending up these smoke screens.

Verse number 6: **“And then there was a countdown clock. There was no countdown clock at first but now on the other side of the Mississippi river there was a countdown clock, and it was scanning down ten, nine, eight, seven, six, five, four, three, two, one. When it reached “one” the eastern**

side of the Midwest started having the same flash points and the cities there began to smoke and the circuits were fried.”

Now I don't think this has to do with geography. I think it means that simply that the progression of time, as I say the distance of Washington State from Washington. This is not a land distance. It symbolizes time distance. So things are going to get hotter and hotter, but it's not because it's on one side of the Mississippi or the other. This is some just telling us that it's getting closer and closer to Washington D.C. which is the goal of all this information coming up.

Verse number 7: **“And I could hear those guys yelling, the system's going up, it's going up, it's going up. And then they would scream it's going down, it's going down, it's going down. Circuits are going to fry; the circuits are going to fry. And then there would be these flash points and you would see the smoke.”**

So people are waking up more and more. And the Big Tech is getting frantic. How can they stop all this free flow of information? Up until really the last election, everybody only paid attention to the mainstream media, the big letter alphabet companies NBC, ABC, CBC, CBS, MSNBC or MSDNC as President Trump likes to say. But this information coming out about the Biden crime family and traveling over the internet means that the democrats have to put out ever increasing disinformation and an increasing number of smoke screens.

Chapter number 3: This is very interesting. **“The Liberty Bell is Cracked and Melted”**. That's what I titled this next chapter. As I say Dana Coverstone did not put any titles on or break it down into chapters and verses. I do this to help my co-prophecy. That's the only reason.

Verse number 1: **“But when the flashes reached Philadelphia, and this was specifically the city that I saw where all this was happening, Philadelphia, the network line that was red, it looked like a fire hose that was pulsating with like LED lights inside of it.**

2) **“But when it got to Philadelphia the network line with red flashing went into where the Liberty Bell was sitting; it went underneath the Liberty Bell. And when the pressure began to build up, it was like watching water in a fire hose. It just filled it up, filled it up, filled it up, and came underneath the Liberty Bell and when it got underneath the Liberty Bell it blew up and the Liberty Bell went flying straight up in the air and it split in half.”**

Now this is a very interesting symbolism. And you might say that this negates everything I've said so far that all this information coming in is the truth or information about Biden's corruption. So why would it crack the Liberty Bell? I think in this case the Liberty Bell is a symbol of disinfo. That's why it is cracked.

Our Lord could have used many different symbols of freedom and liberty in this country. He chose the cracked Liberty Bell to represent the kind of freedom that the Big Tech urges Americans to have regarding its activities. For example YouTube wants the right to show soft porn, but not freedom of speech. That is a false view of liberty. That's fake liberty. That is what all this information is going to blow up. That is not liberty, that's license, and the fake media that's what they promote. They don't promote true liberty and I think that the judgment of the bell up in the air, that's where it breaks open, is in the air. It's blown up by this stream it represents God's judgment on the fake form of liberty that we have become used to here in the United States.

Let's look at verse number 3: **“The bell split in the middle of the air. It threw the Liberty Bell up into the air like this and then the Liberty Bell split in half and it fell in such a way that the round area landed on the ground and it was like going back and forth, just wobbling back and forth. It didn't land on the flat edge**

of the bell that had been cracked in half. And the crack was there it had split through the whole thing. So the crack became what split the whole thing in half.”

And I think you can get that picture, you get the image that the splitting of this Liberty Bell occurs where the crack had been.

*Philadelphia, USA,
the home of the Liberty Bell*

And verse number 4: **“It stopped rocking after what seemed like in the dream several minutes of just rocking back and forth like this. And then the Liberty Bell began to melt. It was almost as if a huge heat source or from the data point. That fire hose was so hot that it was melting now. So the Liberty Bell began to melt like heat was being applied.”**

In other words the data stream of truth, these revelations, these will destroy the false concept of liberty that we have here in the United States now. And freedom of speech will become what must be protected not pornography. And America is afflicted

with this false fake concept of liberty and this data stream. Very soon is going to let Americans know that we have been lied to in many different ways.”

Chapter number 4: “The Washington D.C. Octopus”. This is another very interesting image from Pastor Dana Coverstone's dream.

1) **“And then I saw that the lines of data were all headed towards Washington D.C. from there.”** This is from Philadelphia. **“It looked like the city had these octopus arms and they were trying to fight to disconnect the data lines”**, well of course, **“and what I assume was, they were trying to keep the explosive power of the system shutting down from hitting Washington D.C.”**

So in other words these octopus arms from Washington D.C. represent all of the arms of government, the entire Deep State, all the departments. They are all going to fight this revelation of truth. They do not want this data stream of evidence about Biden's corruption specifically from getting any traction. And as we have seen the big cities are throwing up smoke screens. They are controlling the internet. They control the mainstream media already and that's what this octopus image is telling us.

And verse 2: **“And so these octopus arms came out and they were trying to disconnect the systems. But there was one that just kept flashing, it kept building up pulses. It seemed bigger and more extreme carrying more data, more information than the other lines I'd seen in the interstate area before.”**

Well this is kind of interesting. I wonder if this is one particular website maybe, that is going to carry the water in this battle. Are they the ones who are going to put out more information? And I know I have several favorite ones I like to watch, I like to watch Breitbart. I like to watch Alex Jones. Maybe this is a new one, and of course I watch the C-U-E (Q) guy. I can't even say him here on YouTube or YouTube will censor it. You know who I mean. I like to watch Praying Medic, and “And We Know”. They have been banned; so has the X-22 Report. You can find them, but you have to search. You can't search on Google, because the censorship has already begun, and this data dream tells you that. Almighty God is going to destroy this censorship with this data stream.

Verse number 3: **“Though there were people wearing suits and ties, this was business attire, I saw a justice. It was not necessarily a Supreme Court justice. I didn't see faces, but I saw judges. I saw**

people in suit and tie business attire, professional business, and they were trying to basically pull this line out of Washington D.C. to keep it from blowing up or whatever. They were trying to pull this line away from the city to no avail.”

In other words the professional people in Washington D.C. the white collar workers, the Deep State, they are all trying frantically to keep this free flow of information from coming into the city and according to this dream from Pastor Dana Coverstone. They will even employ lawsuits and go to court to censor the information, and we haven't seen that, I don't think yet but I think that's what this prophecy is telling us.

Verse number 4: **“This thing kept going. It finally blew up because all the connections went to the Capitol building. That's exactly where it was going: to the Capitol building. It finally blew up and the building literally cracked in half. So I've seen the Liberty Bell crack in half and now I saw the Capitol building crack in half and it issues this huge smoke cloud.”**

Now this cracking in half, this does not represent the current splitting in Congress between political parties Democrat versus Republican. This is a completely different splitting. This is a breaking up of, or the splitting, that it is going to reveal between good and evil I believe. I believe that's what this prophecy is telling us.

And this smoke this huge smoke cloud, this is a little different than the disinformation smoke cloud that we saw before, as we find in the next verse, verse number 5. **“As the smoke goes into the air it creates a word and that word was “discovery”. “Discovery” was the word that was then in the air. So you've got the halls of Congress**

cracked in half. You've got the smoke just building up and it's spelling this word out in the sky which is the word 'Discovery'. It's not like the smoke is dissipating or clouds” it's not like the smoke we saw before in other words, “it stays there in the sky. And there are people that are running now and they're not running from the explosion, they're running from the word they see in the sky which was “Discovery”.

So this is what the Deep State really fears. They're not afraid of explosions or bombs. They're afraid of new evidence. That's what this “discovery” means, especially new evidence about the corruption of the Bidens. And I think in this case Joe Biden symbolizes the extensive corruption in the Deep State. He is certainly not the only one and I think we are going to see that a lot of Washington D.C. is complicit with the

Bidens for example, but that's my speculation that's not what the prophecy is here saying. Okay **chapter number 5**. This is the most probably the most interesting chapter, **“Casket in the Rotunda”**. And this is the type of thing that tells me that this is a true prophecy because you couldn't make this stuff up. This had to come from the Holy Spirit.

”Then the scene changed and I saw the Rotunda of the Capitol and there was a closed casket in the middle of the

Rotunda and the sign on the casket stated that inside was the Democratic candidate for the office of President.”

Now what I'm saying is that there is no body in this casket. This casket does not contain Joe Biden's body. It is Joe Biden. The casket itself is the vice president candidate for the Democrat party. That's what this casket represents. It's the same as when Jesus confronted the scribes and the Pharisees. He called them whitened sepulchres, remember? He said you are white and pure on the outside, but the inside you are full of filth and corruption, and that's what Biden is. On the outside he professes to be a Catholic of all things. Inside he is full of corruption. That is what this prophecy from the Holy Spirit to Dana Coverstone is telling us about Joe Biden. He is a casket, and we'll see proof of that in just a minute here.

And at verse number 2: **“And there was a calendar hanging above that casket and it had the date specifically. One of the first times I've seen an actual date, not on a calendar, but on the paper. It said December 17th. That date was clearly spelled out and I'm not going to say someone's going to die on the 17th. I don't know what to say about it. I'm just telling you what I saw that's all I'm doing. But the**

calendar hanging above the casket, the sign had December 17th circled.”

And this is typical of apocalyptic prophecy. There very often are time stamps, and the question is what does December the 17th signify? And I'll get to that in a few minutes. Verse number 3:

“Now one of the sons of the Democratic presidential candidate was there, but not the other. And his wife was there and she was looking down at the ground. Nobody was crying, nobody was crying.”

And he says that twice. Now it is very significant why no one is crying, because this is not a funeral, and I'm sure a lot of people don't understand it. In other words this casket, as I say, does not contain the body of Joe Biden. It is Joe Biden, and that's why no one is crying and that's how you have to understand what's going on here. And I believe this son, by the way who's there is Hunter Biden, because he's part of the Biden crime family. Verse number 4:

“There were also many congressmen and senators from both parties in the room and they all had their heads down looking at the floor. And they were shaking them just violently, just making fists and shaking their heads violently.”

Now why are they looking down? Because they are all probably equally corrupt with the Bidens. They are looking down because they are not looking up to Heaven. They are all materialistic. They are all corrupt, and instead of looking up to Heaven to what God's will is, they are looking to support Joe Biden, and that's why they're there. They're not here to attend a funeral. They're here to either listen to Biden or to; well I think you'll see in a minute why they are there. Verse number 5:

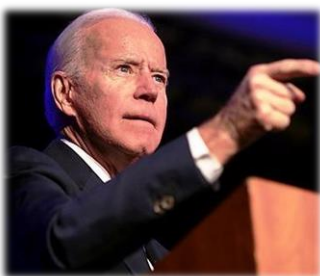

“Also all their shoes were not on their feet. The shoes were piled like when you walk in the Rotunda area. All the shoes were piled there. So all these congressmen, all these senators were

basically barefooted. There were a couple of the females that had socks or stockings on their feet like almost like a pantyhose type stocking on their feet. Everybody else was totally barefoot.”

Now what does that symbolize? I know people are going to say, if Joe Biden is not in the casket if he's not dead by December 17th, that Dana Coverstone has given a false prophecy, but I say what if we don't see a whole bunch of people in the Rotunda in their bare feet? Does that mean Dana Coverstone is giving a false prophecy? No it doesn't. This is all symbolic. It's apocalyptic prophecy. You have to understand what's going on here.

The people are barefoot because they are in reverence of the corrupt Joe Biden. This is like a religious service. It's like Sharia law. You know if you go to a mosque you have to take your shoes off. By the way, this shows that Biden may win the election. This does not show that Biden is dead. It could be that these people are all here reverencing Joe Biden and taking their shoes off, because he has won the election. This prophecy is not about who wins the election. It's not. It's irrelevant to the meaning of this prophecy. And these people are respecting Biden by taking their shoes off. That's the meaning of this. And verse number 6:

“And then a prominent senator stood up and demanded to see the body. And that's when the Sergeant-at-Arms rushed up, with several marines, by the way, and he said: There will be no viewing of the body today or ever again. There will be no viewing of the body today or ever again.”

*Biden,
“the Whitened Sepulchre”.*

So what is he saying? There will be no exposure of the corruption inside this whitened sepulchre, who we know as Joe Biden. This is very sobering. This is the part of the dream that upset me so much when I figured it out, In other words I think Attorney General Bill Barr is going to decide not to prosecute, but I think this decision will come from Donald Trump. Remember Donald

Trump is still the president of the United States on December 17th

whether he wins or loses. Is it possible that Donald Trump is going to pardon Joe Biden? What does he say? **“There will be no viewing of the body today or ever again.”**

Attorney William Barr

To me that indicates a pardon. It won't be this corruption of Joe Biden that has been revealed before December 17th. It will never be revealed. He will never be prosecuted. Verse number 7:

“And the senator sat down and collected himself. Then he walked over to that pile of shoes and he dug through all these shoes until he found his pair. He put them on and he sat there for a minute, looked around, and you could tell he was getting angry and he rushed out of the room and he was running like a sprinter's pace to get out of there.”

The Hon. Rudy Giuliani

In other words, there's one senator who objects to this cover-up. Now remember this is apocalyptic prophecy as I have said. It's very possible that this senator represents any prominent politician. I personally think it represents Rudy Giuliani for example. The fact that he is labeled as senator probably indicates that he is not a senator. Now I'm not sure about this but, my guess is that this person who is disgusted at this cover-up is Rudy Giuliani.

And it could be somebody else. It could be Ted Cruz for example. Verse number 8:

“Smoke was still rising outside and he's running towards the White House with both fists clenched like this. And his mouth is moving and I did not hear the words but I could see that he was cursing, not like swearing like cussing, he was cursing the White House. He was cursing the leadership. I don't want to put words out there because I did not hear what he was saying but he was obviously cursing.”

Now the smoke is still rising outside, which means that the Deep State is still putting up all kinds of propaganda protecting Joe Biden. In other words Donald Trump is going to be under a lot of pressure to pardon Joe Biden. And this senator is very disturbed when he hears the sergeant-at-arms saying that there will be no viewing of the body now or ever for this corruption. Joe Biden is not going to be prosecuted. And as I say Donald Trump will still be president on December 17th. That's the time stamp that's given whether he wins or loses. As I say this prophecy is not about who wins or loses the election. It's about the corruption of Joe Biden, whether he wins or loses, and will he be prosecuted. Verse number 9:

“He was upset with something that was going on. He was intent on making a change and he stopped for a moment near the Washington Monument and looked back. And when you look back there were about 20 to 25 other people who were following him, men and women. I can't tell you parties. I can't tell you who they were; I did not see these faces. The runner, yes I knew who it was; I'm not going to say.”

Well isn't that interesting. Dana Coverstone knew who this senator who was so disgusted at the cover-up. He knows who he is, but he doesn't say. So why doesn't he say?

The reason is because this is apocalyptic prophecy and it is not the job of the prophet to reveal even a clue like that. If let's say it's Rudy Giuliani, if he were to say that this person is Rudy Giuliani, then you would understand the prophecy right away in my opinion. It may not be Giuliani. It may be a senator but it's not his job and I don't think it's too important who this person is. Someone in Washington D.C. is totally upset that Biden is not going to be prosecuted. Verse number 10:

“But nonetheless 20 to 25 people are falling after him but they're holding their shoes in their hand while they walked. He told them to hurry but they just continued their very steady almost cautious pace to get to him. And then he sneers at them and he sneers at the White House and he begins sprinting towards the White House as fast as he can.”

So this objecting senator or mayor has a small following who agree with them and they support him, but they're not doing it wholeheartedly. They are not nearly as motivated as he is. And I think all this is going to come true. We're going to find out these details are correct in the days and weeks ahead.

Chapter number 6 “Lights out for America”. And we're getting to the end of Dana Coverstone's prophecy.

“And at this time I saw the man I’d seen in previous dreams.” So this is not the man running towards the White House. This is someone else. **“He was standing in the place where the President gives the State of the Union Address. He was standing in the halls of Congress right there where everybody sees the President give the State of the Union address every single year and he tapped the microphone.”**

So as I understand it, and I have not watched all of Dana Coverstone's dreams or visions, I believe he has identified this person who has evidently appeared in other dreams of his, as the Holy Spirit and I think that's close but I don't think that's quite who this is. So let's read the rest of this. Verse number 2:

“It wasn't a Shure SM 58; it was a real thin, very professional microphone that was there. He tapped the microphone three times; one, two, three. And then he stated in a very loud voice, “A house divided against itself shall not stand”. And he emphasized the word “shall”. He said it like this: “A house divided against itself SHALL not stand” and the emphasis was on the word “shall”.

I believe what we see here is God's interpretation of this dream. He taps the microphone three times to indicate the Trinity. And why does he use a microphone? To let us know that this is a loud shouting from, I believe one of the herald angels as found in the Book of Revelation. Remember in the Book of Revelation there are seven thunders? I believe this could

be one of the angels who give the seven thunders. This may be related to one of the seven thunders.

I did a video before that the seven thunders are basically warnings to the United States. And I would not be surprised if this angel tapping the microphone, that's why he taps it, and he says, "A house divided against itself shall not stand". In other words this decision not to prosecute Joe Biden does not bring about unity. I think it's very possible President Trump will decide to pardon Biden, whether he wins or loses, and I think he'll win myself. And I think he thinks out of the generousness of his heart. He says, "I'm going to be like Abraham Lincoln". After the civil war, remember Abraham Lincoln wanted to bind up the wounds of the nation. But this is not brother against brother, this is good against evil.

Donald Trump must prosecute the Biden crime family. That is the message of Dana Coverstone's dream. And this angel, this Herald Angel is giving a thundering warning. And he's saying that this will bring about the fall of America. Unity is not achieved by trying to join together good and evil. Verse number 3:

“And then he pushed the microphone down: just put his hand and pushed the microphone all the way down to the podium.” This is the last word, in other words. **“And he walked to the door at the rear of the room. And on that wall there was a panel of probably 25 or 30 light switches”**, that's probably significant numerology I'm not sure what it means, **“just your flip switch, and one by one he flipped them down, one by one, until every light in Congress, in that building, in that room went out. And that was the end of the dream.”**

So it's a very powerful dream, and I thank the Lord that there are prophets like Dana Coverstone in America still warning us. I did a video just a little short while ago about Jeremiah 23, which is about the false prophets but our Lord, said in Jeremiah 23 that He would send true

prophets also. And the in this case I believe Dana Coverstone is true. We'll soon find out won't we?

And this reminds me of 1st Samuel. Remember where King Saul is told by Almighty God to destroy the Amalekites? And he did. He did a good job except for King Agag. And this made the prophet Samuel very angry. He told King Saul you are no longer king of Israel. You know the king didn't like to hear that, and he kept putting Samuel off and I guess they did kind of reconcile if you read that chapter. But Samuel was not satisfied and he called King Agag, the king of the Amalekites into his presence, and he personally hacked that king to pieces. It was up to the prophet to carry out the will of Almighty God.

And that worries me quite a bit, because that means that it's up to people like Dana Coverstone and me to carry out this prophecy about Joe Biden. And it's up to you also. We are going to have to put pressure on Donald Trump if it works out this way. If this prophecy is true about there even being even more corruption being revealed through this data stream, it's going to be up to us to bring about justice in the United States. And this is for the sake of unity and if we don't, the angel is telling us that America will fall. So it's up to us to prevent the fall of America and incidentally, when will all this occur? Well we saw that date of December 17th but what is the meaning of that date?

Well, remember there was a countdown before that. In other words on one side of the Mississippi, on this eastern side, there was a countdown, 10, 9, 8, and so on. I believe that represents 10 days. We don't have enough time for it to be 10 weeks and I don't think it's 10 hours, therefore it must be 10 days and that was on one half of the Mississippi. I believe the other half of the Mississippi also has 10 days. That's another hermeneutic of apocalyptic prophecy and that is extrapolation. So you can extrapolate there were 10 days on either side of the Mississippi. The Mississippi is a dividing line. So in other words I believe it's 20 days that Dana Coverstone is talking about. So 20 days before the 17th, December 17th I believe is when this big data stream is going to start building. And that is just about, if you look at your calendar that's Thanksgiving, and that's not that far away. Thanksgiving is less than a month away.

So I think we are going to see very quickly the fulfillment of Dana Coverstone's prophecy. And the purpose of this video is to let you and I know that we have a duty to perform. We are going to have to put pressure on Donald Trump to fulfil his duty and to not pardon that scoundrel which is being revealed in this prophecy. That Joe Biden is in fact is personally a casket. He is a whitened sepulchre. He cannot be pardoned. He cannot get off the hook.

Pastor Dana Coverstone
